Sketch premises on back showing location on roadway, fire number, existing physical features on the site and all related measurements.

Applicant's Signature

Date

Note: If the project pertains to any work in the Right-of-Way, you must mark or flag area where the driveway is to access a public roadway or excavation of obstruction will be located. If the road that is accessed is a County, State or Federal road or highway, you must contact the Highway Commissioner for Vilas County 715-479-4641.

No work may commence until all required permits have been obtained, are posted at the location and inspected by the Town Building Inspector and Town Foreman.

Call Diggers Hotline 2 days in advance to locate underground utilities

By _____

Per Ordinance 2010-07

Driveways

Definition is any area where travel occurs from a public road over land(s) [whether by easement or ownership] that is not considered to be a part of the public roadway for the purpose of gaining access to land or improvements.

(1) For the first 25 feet of driveway, it shall slope away from the intersecting roadway a minimum of 1% and a maximum of 5% to prevent erosion onto the roadway.

(2) A driveway roadbed shall be constructed of suitable material to support all types of emergency and fire control equipment and requirements for culverts shall be determined by the Town Foreman or Board in considering the application. If culverts are required, a minimum diameter shall be 18 inches.

(3) To adequately provide emergency services and fire protection while insuring safe and unobstructed entry and exit from properties within the Town of Land O' Lakes, the following minimum standards shall be met.

- a. minimum road surface width 14 ft.
- b. minimum width clearance 14 ft.
- c. minimum height clearance 14 ft.

(4) Driveways shall be free and clear of low hanging limbs and overgrown brush on the traveled surface.
